## GR. 2 & 5 CHILDREN TO HAVE OPPORTUNITY FOR FLUORIDE THIS YEAR

Mrs. Samuel Timberlake, chairman of the Dental Health Committee for the Bethel Health and Service Council received word Tuesday from the Division of Dental Health of the Department of Health and Welfare regarding the Council's request for a topical sodium fluoride application program for Bethel and Newry school children this year.

"Request for application" forms (permission slips) are expected in the mail this week-end, and will be distributed to boys and girls in grades 2 and 5 on Monday. The program is being limited to 120 children this year. It is, therefore, very important that children who have any expectation of being unable to be present for the series of four appointments during the three week period beginning about August 8 do not take a request form. Since the census for grades two and five in Bethel and Newry is over the quota allowed, no request forms will be distributed to grade 8 students at this time. This is very disappointing, but since communities like Bethel, having public water supplies, have lowest eligibility status for such service, it is actually a privilege to be able to have this large a program. In 1962, 179 children from this section came for the total number of treatments.

For the benefit of parents who are not familiar with this program, each child must come continued on Page Eight

State of Maine Superior Court  
Oxford SS. Civil Action No. ...  
INHABITANTS OF THE TOWN  
OF UPTON, MAINE  
VS.  
PERSONS UNKNOWN TO  
PETITIONERS.  
COMPLAINT.

1. Your Petitioners, The Inhabitants of the Town of Upton, County of Oxford and State of Maine, acting by and through Fred Judkins, Armand Lavallee and Richard Williamson, duly elected and qualified Selectmen of said Town, duly authorized to take such action, have been in uninterrupted possession claiming a freehold title of the following described real estate situated in said Town of Upton, by virtue of either a lost unrecorded deed or otherwise valid gift of such premises by or from Charles Abbott, late of said Upton, since some time prior to eighteen hundred and eighty to the then existing School District then in force, which School District was abolished and the within described property taken over by the said Town of Upton about either eighteen hundred ninety-nine or nineteen hundred and one and the former school house was removed to another lot and since then been used as a public library, and a new two story large school building with basement erected on the same location and ever since been used as the Town's only public school, until this last year when said school was closed as a conservation measure and the Town's scholars transported to another Town for their education.

The closing of the school raises the question of ownership of the building and land, since the said Charles Abbott has been deceased for more than seventy years, and his son, Hollis Abbott acquired such title as remained in the said Charles Abbott, has been deceased for about forty years, having died childless and leaving no widow.

2. There being no known deed in existence and no known record of acquiring such title, leaves open the question of whether or not there were any limitations or conditions attached to such conveyance, either written or oral, and creates a cloud on the title of said Inhabitants of the Town of Upton, and depreciates the market value of said premises.

3. Your Petitioners aver that an apprehension exists that persons unknown to your Petitioners may claim as heirs, devisees or assigns or in any other way, by, through or under the said Charles Abbott or said Hollis Abbott or their heirs or assigns, and that such apprehension depreciates the market value of said premises, as a cloud on the title.

4. The above mentioned property is bounded and described as follows:

Beginning at a point on the northerly side line of the unnamed cross road between Route No. 26, also known as Thistle Street, and the highway leading from Upton Hill, so-known, to that section of said Town known as "The Mills" near the shore of Umbagog Lake, on the line of land now or formerly of Colon Fuller, et al and in the rear of "The Orange Hall Lot" so-known thence on a course of N. 14° E. along the easterly side line of said Fuller Lot and the side of a steep bank west of the way a distance of two hundred fourteen (14) feet to a stone post set for a marker and continuing in the same course another one hundred twenty five feet, (125) more or less, to a square stone set for a marker and corner on the southerly side line of the Upton Cemetery; thence easterly along the southerly side line of said Cemetery one hundred seventy-nine feet to the westerly side line of said Mill Road; thence in a southerly direction along the westerly side line of said Mill Road two hundred ninety-four (294) feet to the northerly side line of said cross road; thence on a course of due west seventy-four (74) feet to the point of beginning.

5. Also the said Inhabitants of said Town of Upton acting by and through its Board of Selectmen above mentioned, aver that said Inhabitants of said Town of Upton have been in uninterrupted possession and claiming a freehold title of a certain other lot or parcel of land situated in said Upton, since the year one thousand nine hundred and three, by virtue of an oral gift of said lot or parcel by the above named Hollis Abbott for use as a town common, and since that time have improved the same and used said parcel as public property, including paving water from a spring on said lot to the above mentioned school house and for other purposes, which property is bounded and described as follows:

Beginning at the southeasterly side line of said cross road and running along the westerly side line of said Mill Road a distance of eighty-five (85) feet to the junction of said Mill Road and Route No. 26, thence on a course of S. 31° W. along said Route No. 26 a distance thirty-five

(125) feet to the southerly side line of said cross road; thence easterly along the southerly side line of said cross road one hundred twenty (120) feet more or less, to said Mill Road, the point of beginning.

6. Your Petitioners aver that an apprehension exists that persons unknown to your Petitioners claiming as heirs, devisees or assigns of said Hollis Abbott or in some other way by, through or under a person or persons unknown to your Petitioners, may claim some right, title or interest in the premises described adverse to Petitioner's estate; and that such apprehension creates a cloud upon the title and depreciates the market value of the property.

Wherefore your Petitioners pray that all such persons claiming any right, title or interest in or to either of the above described lots or parcel of land averse to that of the Petitioners, be summoned to show cause why they should not bring an action to try title to the above described premises.

20 SECONDS WITH THE NAZARENE

These are days when we commemorate the many thousands who have given their lives to purchase and preserve our freedom.

Wouldn't it be fitting to place Christ first on that list of those we honor remembering that He gave His life to purchase our freedom from sin?

"If the Son therefore shall make you free, you shall be free indeed."

(Quotation from Jesus, John 8:36)

IN MEMORIAM

One sad and lonely year has passed since our great sorrow fell.

Sad and sudden was the call of one so dearly loved by all.

God took Wayne home it was His will.

But in our hearts he is with us still.

Only those who have lost can tell the pain of parting without farewell.

If we had all the world to give we'd give it yes, and even more to hear his voice and see his smile.

And greet him at our door.

Loving and kind in all his ways, Upright and just to the end of his days.

Sincere and true in heart and mind, Beautiful memories he left behind.

Oh! Angels watch over Wayne up above.

Please God just let him know, That we down here do not forget, We love and miss him so.

This poem is in memory of Wayne Palmer who passed away May 30, 1962, from his sister and brother-in-law and boys.

### HIGHWAY DEATHS ARE A TRAGEDY, TOO

The following appeared in the May issue of "New Englander," and is reprinted with their permission.

"In each home, each small town, across the states, the region and thence across the nation, the news of Thresher's dying moved like a black and ugly squall. Here were 129 men dead in their powerful machine, drowned in the cold and dark depths of the sea while those of us on the green and budding land, preparing for the joyous Easter season, mourned their mysterious and age-old passing.

"When ships die, like Thresher, or the Andrea Doria, or when great airliners plunge to the ground with horrible loss of life, we all mourn. Wholesale death is shocking, not easy to mentally comprehend.

"Is this why, then, day after day after day, we so easily accept death in smaller lots—say one or two at a time—on our highways?

"We kill an average of 129 persons a day on our highways in this country. We do so with such regularity, such continuous and tragic regularity, that the statistics are reduced to small box scores buried away in the back pages of our newspapers.

"If 129 separate obituaries could be gathered together and read all at one time, the effect of the whole incredible story might be jarring enough to stun us, to shock us from our lethargy. But they are read only one or two at a time, someone's husband or someone's child and this, while sad, we can tolerate because it is not, our minds tell us, wholesale death.

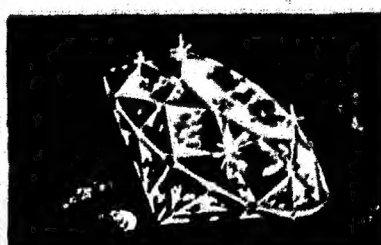

"If a Thresher died every day, if in one metal capsule 129 men died in this country day after day, inquests would spring up at every level, the public would demand answers from responsible authorities. And rightfully so—the very length of the casualty lists would testify to the fact that something was terribly wrong.

"The passing of the Thresher is tragic news to us all. As a nation we mourn the deaths of these men. No less innocent are the men, women and children who will be killed today, tomorrow and through the rest of this year on our highways. We must not accept their deaths."

#### PARENTS' MEETING

The Spoon and Hoe 4-H Club held its annual Parents' Meeting on May 18 at the Congregational Church.

The evening got off to a start with a pot luck supper. Each of the tables were filled to the edges with many different kinds of hot dishes and salads. Each of the 4-H girls made three or four different kinds of cookies.

Just after the supper Mrs. Bailey, explained to the parents the idea that we had on putting a float in the Mollycodd Day parade. On this float, there will be a king and queen 4-Her. At this moment, after keeping the members wondering who the two will be, Mrs. Bailey crowned Chris Bailey and Cynthia Graves as king and queen. There will also be room for the others on the float.

After the crowning, the members put on three one-act plays. They were as follows: "Tit for Tat," "Junk Valuable Junk," and "Dog Gone." Everyone of the members had a part.

To end the evening's activities, Don Young introduced the guest speaker, Wayne Thurston, from Norway. Wayne Thurston spoke and showed slides on his trip to India. Other clubs from around this area were invited to this part of the program. The Mount Abram 4-H Club attended. Others that were going to come, could not make it, which was understand-
